

PROGRAM GOALS

MUSIC K-12

1. The student knows the basic elements and structure of music.
2. The student is able to use notational systems.
3. The student is able to improvise and create music.
4. The student is able to demonstrate performing skills.
5. The student knows the implications of music in our society, with respect to music careers, its avocational and leisure uses and, as consumers, know about musical products.
6. The student values ethnic music and the American musical heritage.
7. The student values music as a tool to bridge the gaps between nations, cultures and people thus fostering a "world" as well as national music.
8. The student values music as an avenue of communication for the exchange of feelings and emotions.
9. The student responds overtly and covertly to inherent esthetic qualities of music.
10. The student is able to develop acute auditory discrimination through music appreciation.
